On 08-24-92 at approximately 1030 hours, Investigators were assigned to assist Investigators Christiansen and West regarding the circumstances surrounding a deputy involved shooting which occurred at the above location at the above time.

On 08-24-92 at approximately 1230 hours, Investigators arrived at the location and were briefed by Investigators Christiansen and West, that the above suspect was shot by Deputy White (Victim #1) after the suspect pointed a handgun at him. The suspect, who does not live at the location, was inside of the residence in the family room and the victim was at the front doorway on the porch at the time of the incident.

Investigators, at the request of Investigators Christiansen and West, conducted a crime scene investigation at the location.

Investigators observed the location to be a one story single family dwelling in a typical residential housing tract consisting entirely of single family dwellings.

Nicole Street is a north/south street and the location is situated on the west side of the street with the front door facing east.

The driveway is on the north side of the property and leads to an attached double garage. There is a maroon Oldsmobile, license #[redacted], which belongs to the residents of the location parked in the driveway, and there was yellow crime scene tape securing the location.

A 2 feet wide concrete walkway runs south from the drive and west to the front porch and entryway. There is a decorative wrought iron fence which runs from the south wall of the garage to the south property line and west to the southwest corner of the residence. The fence dissects the front yard approximately in half.

The front concrete porch is approximately 5 feet from east to west and 6 feet from north to south. The entryway consists of double doors which open inward and are currently open.

On the walkway was the above held spent bullet casing, Evidence Held Item #1, approximately 15 feet from the front entryway and 8 inches north of the south edge of the walkway.

On the floor of the front porch at the northeast corner was the above held spent bullet casing, Evidence Held Item #2, approximately 5 feet east of the east wall of the residence and 3 inches south of the north porch wall.

The front entryway leads into the living room. There is an approximate 5 feet x 6 feet tile floor just inside the entryway and the remainder of the residence is carpeted.

Adjoining the living room on the north is an open dining room with a dining table and four chairs, one chair at each side of the table. The north wall of the dining room separates it from the kitchen, and there is an open entryway from the dining room into the family room which is west of the kitchen and separated from the kitchen by a 4 feet high eating counter which runs north and south.

The family room west of the kitchen and northwest of the dining room is approximately 15 feet x 20 feet.

There is a love seat facing to the west with the back of the seat approximately 6 feet west of the kitchen eating counter.

On the floor of the family room was the Smith & Wesson revolver, Evidence Held Item #3, approximately 5 feet west of the kitchen eating counter and 8 inches south of the north wall below the window. The gun was loaded with one live cartridge directly under the hammer and the hammer was down. The cartridge had an indentation on the firing cap, indicating a possible misfire.

Note: Investigators were advised that the gun was originally found cocked with the hammer locked back, and that for safety reasons the hammer was put into its current down position.

On the floor approximately 6 inches east of the gun, was a circular blood stain approximately 7 inches in diameter.

Note: Investigators had earlier been advised that the suspect had been sitting on the love seat back rest facing east when he was shot, causing him to fall onto the floor approximately where the gun and blood stain were located.

On the floor at the rear of the love seat, approximately 7 feet south of the north wall was what appeared to be a bullet hole through the carpet. Also at this location was a pack of Marlboro cigarettes, a small piece of black cloth, a small piece of wood (1/2" x 2") from a dining room table chair, and a small blood stain (1/2" x 2").

It should be noted that all of this is shown in the photographs as Item #5; however, it was not retrieved and held.

In the dining room, Investigators observed a bullet hole through the back of the wood chair located on the south side of the dining room table approximately 3 feet up from the floor. Another bullet hole was through the left back rest support of the wood chair located on the west side of the dining room table, approximately 2 feet 5 inches up from the floor.

It should also be noted that the hole in the floor behind the love seat lined up almost directly to the holes in the two dining room chairs and to the front doorway where it was reported that the victim had fired from.

An entryway on the west wall of the living room leads into a hallway which adjoins the bedrooms and bathroom, to the west of the living room.

In the southeast bedroom Investigators observed the window on the south wall opened and the window screen torn out.

In the remaining rooms nothing of note was observed.

All of the evidence was photographed by Deputy Lee, assigned to Sheriff's Crime Lab, prior to its removal by Investigators.

The location was video recorded by Deputy Mitchell, who is also assigned to the Sheriff's Crime Lab.

Evidence Held Items #1 through #3 were transported by Deputy Mitchell to the Sheriff's Crime Lab for examination by print and firearms experts. Refer to lab receipt #H514500. A complete and detailed report will be prepared by print and firearms experts, a copy of which will be made a permanent part of this file.

Investigators conducted a neighborhood canvass for possible witnesses.

At 1320 hours, Investigators interviewed [redacted], MW/34, [redacted] at his residence.

At 1345 hours Investigators interviewed [redacted], MW/34, [redacted] at his residence.

Both interviews were tape recorded with the knowledge and permission of the interviewees. The interviews will be transcribed and will be made a permanent part of this file.

At 1350 hours, Deputy District Attorney John Spillane and District Attorney Investigator [redacted], from the S.I.D. Section of the District Attorney's Office arrived at the location and were briefed by Investigators.
